FINE AND RARE MEDALS.

1380 Set of medals of the Dukes of Bavaria. This set was purchased by Mr. Dohrmann in Bavaria, sold by him to Dr. Martin, and bought by me from him. The medals form an unbroken series, from 1, Otto III to 18, Maximilian III. The medals are of fine silver, each bears a bust in high relief, and on the reverse a biographical sketch of the subject, with a condensed history of the country, contained in a velvet-lined case, covered with Turkey morocco and gilt. A choice and beautiful set of medals, and of great historic interest. 18 pieces. Size 27. Condition as perfect as when struck. The only set ever offered for sale in America. Cost Dr. Martin $68.40, and for the set I paid him $72, or $4 each.

THE HARD TIMES TOKENS.

Of these pieces, mostly struck near the 1837 or Hard Times period, many have a political significance, while many others were struck for use in the way of business. Much has been written concerning these tokens, but as it would seem, with very little effort to impart any information concerning them. The Company that made them has an office in New York, and the man chiefly instrumental in the manufacture is well known in that city and could probably give more information concerning the dies and their manufacture than perhaps any other person. In Scott's *Coin Collector's Journal*, Vol. VI, may be found a carefully prepared list embodying most of the information now accessible to collectors. For the few pieces following, in any way remarkable, either for rarity or fineness, Scott's list is referred to by numbers in brackets.

ANNOUNCEMENT.

The undersigned begs to announce that he holds frequent sales by auction in New York and Boston, of coins, medals, tokens and pre-historic objects in stone and flint, pottery, bronze and copper, and solicits consignments of the same from collectors, and owners, executors, administrators and trustees, all of which goods he will properly catalogue, and offer for sale to a large constituency of buyers both in America and in Europe with a view to obtaining for owners remunerative prices.

To the sale of coins and medals particularly, and of the various objects to which collectors turn their attention he has devoted his time for more than thirty years, and he feels that the multitude of his sales and the general success attending them offer a guarantee of faithful service.

For this service a uniform charge of 25 per cent. is made with such trifling expense as packing boxes and transportation, which is seldom more on a consignment than from one to two dollars. This commission includes preparation of the catalogue, printing, distribution and postage, and attendance on the sale in the interest of owners, and purchases made free of commission to buyers, with no charge to them except freight and packing as aforesaid.

Aware of the low prices at which sales are undertaken at auction, it may be said that the average cost of auction sales for cash paid out averages about 17 per cent. and it is obvious that it cannot fairly be undertaken for less than 25, and in case it is, some interest of the owner must be neglected either by inadequate description or by crowding lots together at the risk of realizing inadequate prices.
